

# Free File Options to E-file Your Vermont Income Tax Return for the 2013 Tax Year

If you qualify for Free File options to electronically file your federal individual income tax return, you may also qualify for free electronic filing of your Vermont return with one of the Free File participating vendors. To file your 2013 Vermont return, choose from one of the vendor links below. You will be directed to the vendor’s Free File website.

*Please note: You may use any of these vendors even if you are not eligible for Free File, but if you are not eligible, you will be charged a fee to use the software. More vendors may be found on the IRS website at [www.irs.gov/freefile](http://www.irs.gov/freefile) but only those listed below are participating with Vermont. The Vermont Department of Taxes does not endorse any vendor.*

Follow these tips to ensure state filing is free to eligible filers:

- 1. Most tax software vendors have two websites, one that is meant for use by the general public where a fee may be charged and the other for those eligible for Free File. *To access the Free File website, use one of the links below.*
- 2. File *both* your federal and Vermont returns through the *same* Free File access point. In other words, do not file your federal return through the IRS webpage or using one of the links below, and then file your Vermont return through a vendor website.
